ABSTRACT

Nowadays, there's a trend and rapid growth here in Malaysia concerning Islamic Treatment Centers, which provides the services and treatments of the diseases. Various methods and approaches were offered for the treatment of various diseases. Sorcery was one of the diseases that need serious concern in Islamic Treatment Centers. The fieldwork was conducted in 23 of Islamic Treatment Centers in Malaysia, in order to investigate and identify the methods and approaches practiced in the treatment of sorcery and those related to it. Through a comparative analysis method, this article seeks to examine Ibn Qayyim al-Jawziyya's thought on this issue through several of
