Subject: Fwd: [ICNIT2013] Paper Submission for Special Issue to International Journals, JCIT, JDCTA, IJACT, AISS, JNIT, IJIPM.

Salam & Hi Guys,

Congratulation to us!!! :) our paper presented at ICNIT2013 has been selected for Special Issue of AICIT International Journals (see below). We have to choose which journal to submit our paper. The journals are not ISI indexed but don't be so sad :) all are scopus cited and 4 of them will be covered in Elsevier,
http://www.aicit.org/ijact/board/nboard_view.html?jname=IJACT&idx=544&cate=news

The not so good news is we have to extend the paper **30%-50%** and change the title. We have to do it in **one month**. So more work to do.
 I hope the progress of the prototype going smoothly so we can add more detail of the system and literature review in the paper.

Please nominate one of the journal.

regards,
 Nurul

Dear Dr. Nurul Fazmidar Mohd Noor,

With deep appreciation for your precious contribution to ICNIT2013, I am pleased to announce that your paper "PhyVis: Problem Solving in Physics through Visualizations" is selected for Special Issue of AICIT International Journals, JCIT, JDCTA, IJACT, AISS, JNIT, IJIPM.

Please select one of above journals and you are kindly encouraged to submit the extended/ updated version of paper to the journal website linked below.

At least, your paper should be updated 30~50% and follow each journal's regulation.

Submitted papers will be published in the journal without additional review process.
